

Neuro Rehabilitation Program

Led by a board certified physical medicine and rehabilitation physician, our team of experts will design an individualized treatment plan for each patient in our neuro rehabilitation program. We focus on addressing:

- Medical care and monitoring needs
- Strength and endurance
- Coordination, balance, and sensation
- Cognition and swallowing
- Vision
- Mobility and transfers
- Self-care activities and safety
- Eating and nutrition
- Medication management
- Family support and education needs

If you, your patient, or a loved one is in need of a comprehensive approach to regaining functional mobility and independence, please contact us at 361.906.3700.
